

I want to voice my concern over the issue of LPFM Stations.  
I listen to a few national FM radio stations (Airl and KLOVE) and do not want to see them disappear because of a LPFM station being able to take over the airwaves that these stations already use.  
I know there is a lot of junk on the airwaves but these voice a positive message not only to myself but also to my kids, who also listen to them. Please, reconsider allowing the LPFM stations from taking over airwaves already established by national stations.  
Concerned Radio Listner,  
David Shedd
